

HERCULAN NATUR

Fluid hand cleanser for medium industrial soiling

Description:	HERCULAN NATUR is a highly viscous, beige, pleasantly perfumed hand cleaner with skin-friendly and biodegradable maize cob meal and skin care agents. HERCULAN NATUR is free of solvents and terpenes. Weakly acidic pH.
Composition (INCI):	AQUA (WATER), ZEA MAYS (CORN) COB MEAL, SODIUM C12-18 ALKYL SULFATE, BENTONITE, GLYCERYL RICINOLEATE, PEG-12 DIOLEATE, GLYCERIN, PEG-7 GLYCERYL COCOATE, SODIUM LAURETH SULFATE, LYSOLECITHIN, CITRIC ACID, PARFUM (FRAGRANCE), 2-BROMO-2-NITROPROPANE-1,3-DIOL, IODOPROPYNYL BUTYLCARBAMATE, CI 77891
Properties:	HERCULAN NATUR removes medium industrial soilings. The dirt is gently removed from the skin, emulsified and rinsed with water. The skin feels pleasantly soft and supple after the washing process. Natural meal from the spindle of the corn cob supports the cleaning process in a mechanically mild manner without causing micro injuries. Maize cob meal clogs no drains or pipelines and is biodegradable.
Fields of application:	HERCULAN NATUR is a proven, naturally-based, modern skin cleanser. It cleanses the skin quickly, thoroughly and gently, especially with oily and greasy soiling and dusts. HERCULAN NATUR can be used universally in a wide range of industries: mechanical engineering, garages, metalworking, and mining,
Use:	HERCULAN NATUR is designed for use over a dispensing system. Apply one to two pump strokes to slightly dampened hand, distribute under scrubbing movements and rub in. When the dirt has dissolved, rinse well with water until the hand is foam-free. When working with highly adhesive materials, it is advisable to apply HERWESAN PRO or HERWESAN OLIO as a protective cream before work. These protective creams make subsequent cleaning much easier.
Regulatory framework:	HERCULAN NATUR is subject to the EU Cosmetics Regulations and corresponds to it in its current version. It does not have to be labelled according to the regulations on hazardous substances.
Storage and shelf life:	HERCULAN NATUR can be kept for 30 months at room temperature (from date of manufacture). The expiry date is denoted on the packaging.
Packaging size:	250 ml bottle, 2000 ml pouch bottle, 2500 ml hard bottle and 10 L canister. Dispensing-system: HERCUMAT dispenser, HERWEMAT HERO, HERWEMAT UNI and SOFTMAT dispenser
Disposal:	The cardboard boxes, tubes and plastic packaging are recyclable.
