

HERWE DERMASEPT N LIQUID

Alcoholic hand disinfectant

Description:	HERWE DERMASEPT N LIQUID is an alcoholic, liquid preparation for hygienic hand disinfection. Effective against bacteria, yeast and viruses (limited virucidal PLUS).
Composition:	HERWE DERMASEPT N LIQUID is an aqueous-alcoholic solution with skin caring additives. Active ingredient: 65,0 g/100 g ethanol
Properties:	HERWE DERMASEPT N LIQUID was developed for hygienic hand disinfection without use of water and is particularly skin-friendly. It contains neither cumulative long-term active ingredients nor perfumes. It contains myristyl alcohol and glycerine as skin-caring components. HERWE DERMASEPT N LIQUID is therefore the ideal hand disinfectant for daily use and over a longer period of time. HERWE DERMASEPT N LIQUID shows a broad efficacy spectrum against enveloped viruses (e.g. H1N1 (swine flu virus), H5N1 (bird flu virus), HBV, HCV and HIV) as well as against noro-, rota and adenoviruses (limited virucidal PLUS). HERWE DERMASEPT N LIQUID is bactericidal, mycobactericidal / tuberculocidal (M. avium and M. terrae) and yeasticidal.
Area of use:	HERWE DERMASEPT N LIQUID is used wherever there is an increased risk of the transmission of bacteria and viruses, e.g. in industry (food processing, medical device manufacture), in health care and in care facilities.
Application:	Take a sufficient amount of HERWE DERMASEPT N LIQUID into dry hands. Keep hands moist with the undiluted product during the entire contact time and if necessary apply hand disinfectant in portions again. <u>Contact times:</u> Hygienic hand disinfection: (EN 1500): 30 sec. Limited virucidal PLUS (EN 14476 incl. noro-, rota- und adenoviruses) 30 sec.
Regulatory:	HERWE DERMASEPT N LIQUID is subject to the EU biocide product regulation. BAUA Reg. no. N-71514. 100 g contain 65.0 g of ethanol. HERWE DERMASEPT N LIQUID is classified and labeled in accordance with EU law on hazardous substances. The safety data sheet must be observed. Use disinfectants safely. Always read labelling before use and read product information.
Storage and shelf life:	HERWE DERMASEPT N LIQUID is stable in closed containers at room temperature for 36 months (from the date of manufacture). The respective expiry date is indicated on the packaging.
Packaging sizes:	150 ml pocket sized bottle, 500ml EURO dispenser bottle, 1000ml EURO dispenser bottle, 1000 ml pouch bottle, 1000 ml VIVA dispenser cartridge, 5 L canister
Recycling:	The cardboard and plastic packaging can be added to the local recycling. Only dispose of the packaging completely emptied for recycling.
