# YOUR SKIN IN GOOD HANDS. FOR 25 YEARS.

HERWE offers as an internationally successful manufacturer of **SKIN PROTECTION**, **SKIN CLEANSING**, **SKIN CARE** and **SPECIAL PRODUCTS** a high-quality, innovative and customer-oriented assortment to company doctors, safety engineers, professional associations and end users for more than 25 years.

The entire product assortment for the vocationally loaded skin is developed and manufactured in the research and production facilities at our location in Sinsheim. Our excellent management system (**DIN ISO 9001:2008**) guarantees thereby an optimal operational sequence of the business processes.

A GMP-based, progressive finishing technique and efficient expirations of logistics enable a high quality and availability of the products. Our very well trained sales and applications engineers ensure a technically high quality and holistic consultation to our customers. Our products are tested on their effectiveness and fulfill all legal regulations.

The company policy of our owner-led company is determined by partnership co-operation with national and international enterprises of all size classes and all industrial sectors.

Our successful cooperation with Henkel AG & Co. KGaA, in the field of cooling lubricants and skin protection as well as the resulting special testing design of the **BUS (Bovine Udder Skin) model** for proving the effectiveness of skin protection agents, exists since 2003.

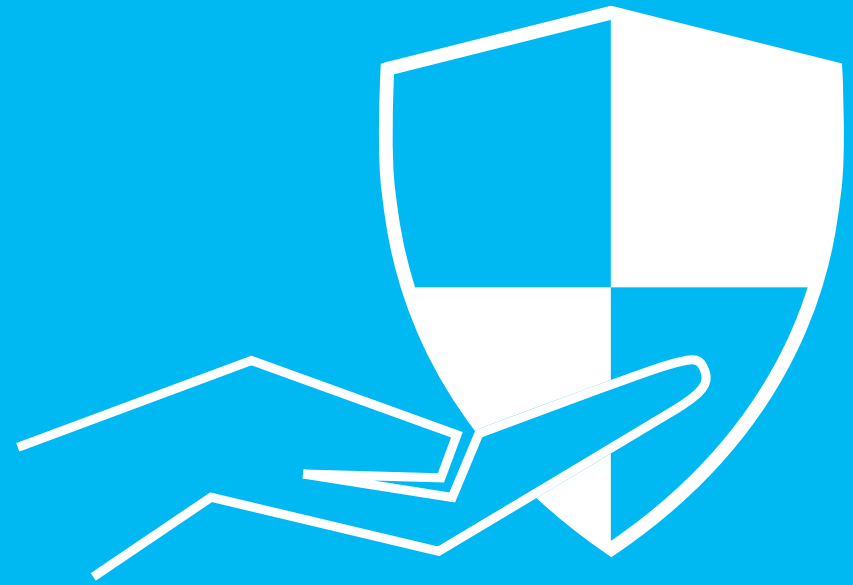

BUS (Bovine Udder Skin) model

25  
YEARS

# CLEAR ICONS. DISTINCTIVE PRODUCTS.

For the 25th anniversary, HERWE sets as a driving force in the industry again new accents: with a new logo and young design. The modern and attractive appearance supports the perception and therefore the use of the products. Despite all the optical changes, we demonstrate continuity, especially in the proven HERWE quality.

5	Distinguishing feature			

# SKIN PROTECTION

## BEFORE WORK AND AFTER EVERY SKIN CLEANSING

Skin protection products reduce skin stresses at work: used as a preventive measure, they can also prevent the damaging effects of work materials or work conditions on the skin. The important aspect here is the correct product selection because only this will effectively protect skin. In this connection the naming and clearly understandable pictograms, which clarifies the scope of application of every single HERWE skin protection product on the first sight, will help.

## SKIN PROTECTION PLAN. SKIN PROTECTION.

The Skin Protection Plan contains the skin risks at the workplace and the **SKIN PROTECTION**, skin cleansing, skin care and special products to be used for minimizing these risks. It must be drawn up by the employer and announced to the employees by posting it in the appropriate place. The Skin Protection Plan content is an integral part of regular instruction.

			<p>On request, HERWE will gladly draw up for you a cost free <b>customized and company-specific</b> Skin Protection Plan</p>
<p>ALTERNATING WORKING MATERIALS</p> <p>FOR HEAVY SOILING</p> <p>WATER-INSOLUBLE WORKING MATERIALS</p> <p>WATER-SOLUBLE WORKING MATERIALS</p> <p>ARTIFICIAL AND NATURAL UV-STRESSES</p> <p>AIRTIGHT CLOTHING</p>	<p>SLIGHT SOILING</p> <p>MEDIUM SOILING</p> <p>HEAVY AND SPECIAL SOILING</p>	<p>LIGHT CARE</p> <p>NORMAL CARE</p> <p>RICH CARE</p>	

## FOR ALTERNATING WORKING MATERIALS HERWESAN ALL-IN-ONE

- easily spreadable, fast-absorbing O/W type skin protection emulsion
- with new film-forming system against water-soluble and water-insoluble working materials
- not greasy, thus provides an especially good grip on the skin after absorption
- imprint- and silicone-free
- can be used under gloves
- very economical in dosing

For imprint-free working with frequently changing working materials and occasional wearing of gloves

### Scope of application:

Universally usable in frequently changing activities such as in metal processing, electrical engineering, plastic and chemical industry as well as in health care and in the food industry to protect against disinfectants.

## FOR ALTERNATING WORKING MATERIALS HERWEDERM PROTECT SENSITIVE

- without perfumes, dyes, or preservatives
- dermatologically tested on atopic skin
- non-greasy skin protection gel
- with highly effective, universal film-forming system
- forms an elastic, breathable and invisible protective film that gives a good grip
- imprint- and silicone-free

For imprint-free working and frequently changing working materials

### Scope of application:

Universally applicable special protection preparation recommended for all industries and workspaces for skin sensitive people and with appearance of skin problems.

Suitable for general application especially for health care, pharma and food sector as well as for precision mechanic and electromechanics.

For further information about our HERWEDERM SENSITIVE range, see pages 24 and 25.

## FOR ALTERNATING WORKING MATERIALS HERWESAN DUE

- easily absorbable cream
- with dualistic active principle
- excellent protection
- slightly greasy
- discreetly scented, silicone-free

Protective cream for the handling of water-soluble and/or water-insoluble working materials

### Scope of application:

Not clearly defined skin stresses and frequently changing working media.

SKIN PROTECTION

## FOR HEAVY SOILING HERWESAN PRO

- fast-absorbing, easily spreadable water-soluble cream
- actively supports subsequent skin cleansing
- very good grip
- O/W type emulsion
- good skin tolerance
- adjusted to the skin's pH-value, silicone-free

**Special product for heavy soiling**

**Scope of application:**

Oils, fats, metal grit, used oil, dust, soot.

## FOR WATER-INSOLUBLE WORKING MATERIALS HERWESAN OLIO

- fat-free, fast-absorbing, water-soluble cream
- facilitates the skin cleansing
- forms microfilm with good grip
- O/W type emulsion
- high wax and pigment content
- slightly scented, silicone-free

**Protective cream for the handling of oil-soluble working materials**

**Scope of application:**

Oils, fats, resins, adhesives, solvents, thinners, cutting oils.

## FOR WATER-BASED WORKING MATERIALS HERWESAN ACQUA

- water-insoluble cream
- outstanding protective effect
- high adhesiveness
- W/O type emulsion
- very fatty
- slightly scented, silicone-free

**Protective cream for the handling of water-based substances**

**Scope of application:**

Water-miscible cool lubricants, drilling emulsions, diluted lyes, detergent solutions, alkaline and acidic cleaners, cement, lime, mortar.

## WHEN WEARING GLOVES HERWESAN DRY EMULSION

- non-greasy O/W emulsion
- with witch hazel extract as tanning agent and aluminum chlorohydrate (ACH)
- reduces perspiration and protects against skin softening under gloves
- has no effect on the protective function of gloves
- increases the wearing comfort of protective clothing
- also recommended for wet workplaces
- strengthens the skin's horny layers
- use only once a day
- slightly scented, silicone-free

**Against skin softening caused by the wearing of gloves and airtight clothing as well as contact with aqueous working materials and for the skin's mechanical stress, ideal for cleaning staff**

**Scope of application:**

Wearing of gloves and gumboots, precision electronics work, handling of insulation substances, glass fibers, wire wool and cardboard packaging.

## FOR UV STRESSES HERWESAN UV

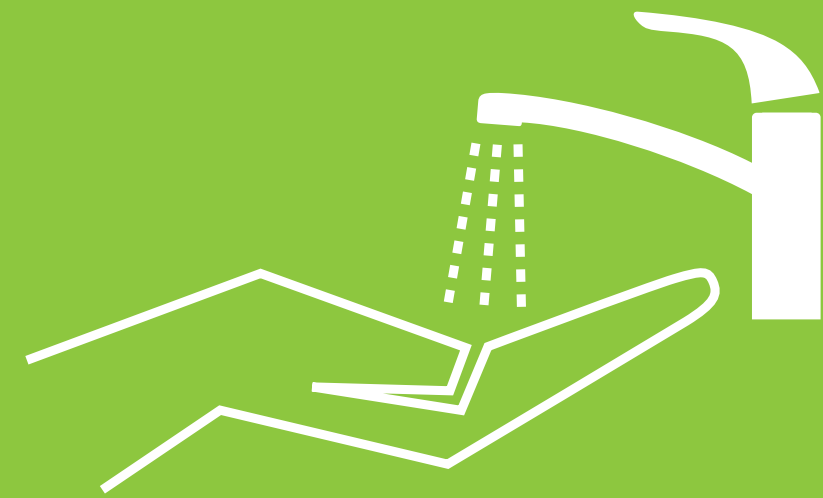

- water-resistant sun protection cream, easily spreadable and fast-absorbing
- with cosmetic oils and shea butter as care components
- proven UV-A protection according to DIN 67502
- high UV-B sun protection factor of 30
- apart from organic protection filters, also contains selected sun protection pigments against UV-C rays, therefore also recommended as protective ointment for welders
- slightly scented, silicone-free

**Protective cream for artificial and natural UV rays**

**Scope of application:**

UV radiation exposure in outside work and artificial radiation exposure caused by arc and electrical welding.

# SKIN CLEANSING

## BEFORE BREAKS AND AFTER WORK

Skin cleansing removes damaging or bothersome dirt from skin. The priority is not fast cleansing, but one adapted to the degree of soiling. Thus, when selecting a HERWE skin-cleansing product, the most important criterion is effective cleansing with the best possible protection and skin tolerance.

In **coarse hand cleaners** (down page 16), the chemical cleansing ability of the washing-active substances is additionally supported by mechanical abrasion of the scrubbing particles of the respective products, giving them the right cleansing performance according to the degree of soiling.

When there is strongly-adhering dirt from colors, varnishes, adhesives etc. the use of special ingredients like dissolving or reducing agents in hand cleansers is imperative. Owing to their optimal combination of active ingredient concentrations, the HERWE **special cleansers** (down page 18) are characterized by very good skin tolerance with excellent cleansing performance.

## SKIN PROTECTION PLAN SKIN CLEANSING

The Skin Protection Plan contains the skin risks at the workplace and the skin protection, **SKIN CLEANSING**, skin care and special products to be used for minimizing these risks. It must be drawn up by the employer and announced to the employees by posting it in the appropriate place. The Skin Protection Plan content is an integral part of regular instruction.

ALTERNATING WORKING MATERIALS	SLIGHT SOILING	LIGHT CARE	HYGIENIC DISINFECTION

## WASHING GEL FOR SLIGHT SOILING WITHOUT SCRUBBING PARTICLES

### DOUXAN

Hand cleansing lotion

- mild cleansing lotion with skin-friendly surfactants
- high lipid replenishing
- pink-colored with pearl shine effect
- subtly scented

Cleansing lotion for hand washing

Scope of application:

For hygienic cleansing in office and administration buildings and in hotels and restaurants.

## WASHING GEL FOR SLIGHT SOILING WITHOUT SCRUBBING PARTICLES

### HERWEDERM CLEAN SENSITIVE

Washing liquid for sensitive skin

- without perfumes, dyes, or preservatives
- dermatologically tested on **atopic skin** and confirmed by **BUS model** studies
- for particularly mild hand and body cleansing
- with a high level of moisturizing substances

Washing liquid for extremely sensitive skin types

Scope of application:

Universally applicable special cleansing preparation recommended for all sectors and working areas, especially when skin problems arise and for skin sensitive persons. Suitable for general application especially for health care, pharma and food sector as well as for precision mechanic and electromechanics.

For further information about our  
HERWEDERM SENSITIVE range,  
see pages 24 and 25.

## WASHING GEL FOR SLIGHT SOILING WITHOUT SCRUBBING PARTICLES

### AZUDERM EXTRA MILD perfume-free

Mild skin cleansing gel

- especially mild, colorless washing liquid
- in particular suitable for frequent hand washing
- with skin-friendly sugar
- also suitable for body cleaning
- adapted to the skin's pH
- no preservatives
- unscented

Soap-free skin cleansing gel for sensitive and strongly stressed skin

Scope of application:

Frequent skin cleansing in administration, nursing and retirement homes, hospitals as well as in food production areas, for example.

## SHOWER GEL FOR SLIGHT SOILING WITHOUT SCRUBBING PARTICLES

### HERWE FRESH

Shower gel

- mild shower gel with skin-friendly surfactants
- with caring conditioners for a protecting hair wash
- suitable for daily showering
- adjusted to the skin's pH
- with a pleasantly fresh scent, without dyes

Shower gel for the skin and hair as well as mild cream soap for hand cleaning

Scope of application:

After sweaty work, leisure or sports activities and when washing hands often.

## CLEANSING LOTION FOR SLIGHT SOILING WITHOUT SCRUBBING PARTICLES

### SEDASAN

Cleansing lotion

- washing lotion for the hands and the entire body
- with deep-cleaning and skin-friendly, washing-active substances
- high cleaning power with very good skin tolerance
- slightly yellow-colored with pearl shine effect
- pleasantly scented

Creamy mild cleansing lotion with high washing power

Scope of application:

Can be used throughout the organization for slightly oily soiling and also in office and administrative buildings.

## HAND CLEANSER FOR MEDIUM SOILING WITH NATURAL SCRUBBING PARTICLES

### HERCULAN NATUR

With extra fine corn cob powder

- beige, slightly scented flowing paste
- biologically degradable natural whole corn meal (from the corn cob spindle) as scrubbing particle
- high cleansing power coupled with very good skin tolerance owing to especially soft scrubbing particles that cause no micro-injuries
- high proportion of re-lubricating substances

Free-flowing hand cleanser with environmentally-friendly natural scrubbing particles for medium industrial soiling

#### Scope of application:

Machine construction, tool making, repair shops and metalworking shops.

## HAND CLEANSER FOR HEAVY SOILING WITH NATURAL SCRUBBING PARTICLES

### HERCULAN FORTE NATUR

With corn cob powder and a high proportion of washing-active substances

- highly viscous, beige free-flowing paste
- biologically degradable corn cob powder as scrubbing particles
- especially effective surfactant combination that includes sugar surfactants
- high proportion of re-lubricating substances like chamomile extract, for example
- adjusted to the skin's pH
- solvent-free with pleasant fragrance

Free-flowing hand cleansing paste with effective surfactant combination and environmentally-friendly scrubbing particles for strong industrial soiling

#### Scope of application:

Various kinds of strong oily and greasy soiling found in repair shops, foundries and metal processing, for example.

## HAND CLEANSER FOR HEAVY SOILING WITH NATURAL SCRUBBING PARTICLES

### HERCULAN INTENSO NATUR

With corn cob powder, special washing-active substances and natural oils

- creamy, beige hand cleanser with biologically degradable corn cob powder as scrubbing particles that cause no micro-injuries
- intensive cleansing effectiveness through its high content of actively washing substances and rapeseed oil
- good skin compatibility / adjusted to the skin's pH
- solvent-free, with natural fragrance

Free-flowing hand cleansing paste with natural oil and environmentally-friendly scrubbing particles for the toughest industrial soiling

#### Scope of application:

For especially oily and greasy dirt on skin, metal grit, casting dust and soot, e.g. in repair shops, foundries, metal processing and other production facilities that produce very strong soiling.

## HAND CLEANSER FOR MEDIUM SOILING WITH PLASTIC SCRUBBING PARTICLES

### HERCULAN

Free-flowing paste for medium soiling

- oatmeal free-flowing paste with skin-friendly plastic powder
- strong cleansing power with good skin compatibility
- high proportion of re-lubricating substances
- pleasantly fragrant

Free-flowing hand cleanser with micronized plastic scrubbing particles for medium industrial soiling

#### Scope of application:

For oily and greasy soiling produced in repair shops, metalworking, machine construction, tool making shops.

## SKIN CLEANSER FOR HEAVY SOILING WITH PLASTIC SCRUBBING PARTICLES

### HERCULAN FORTE

Free-flowing paste for strong soiling

- oatmeal free-flowing paste with strongly abrasive but skin-friendly plastic powder
- strong cleansing power through its high concentration of actively washing substances
- high proportion of re-lubricating substances
- good skin tolerance
- pleasantly fragrant

Free-flowing hand cleanser with micronized plastic scrubbing particles for strong industrial soiling

#### Scope of application:

Strong soiling caused by oils, fats, soot, metal grit and graphite in machine construction, tool making, repair shops and metalworking shops.

## SKIN CLEANSER FOR HEAVY SOILING WITH PLASTIC SCRUBBING PARTICLES

### HERWE ORANGE FRESH

Free-flowing paste for strong soiling

- bright green free-flowing paste with micronized plastic powder as scrubbing particles
- brilliant cleansing power coupled with good skin tolerance
- with essential oils as natural solubilizers
- with skin-friendly panthenol
- pleasantly fresh scent

Free-flowing hand cleanser with a fresh scent for intense industrial soiling

#### Scope of application:

For extremely oily and greasy industrial soiling, metal grit, graphite or soot in the fields of metal processing and similar production fields.

## HAND CLEANSER FOR HEAVY SOILING WITH PLASTIC SCRUBBING PARTICLES

### VERTURAN

#### Paste for strong soiling

- white, not fluid cleansing paste
- with skin-friendly plastic powder
- strong cleansing power coupled with good skin tolerance
- contains medical white oil as re-lubricant
- pleasantly scented

**Hand cleansing paste with micronized plastic scrubbing particles for strong industrial soiling**

#### Scope of application:

For oily and greasy soiling produced in machine construction, tool making, repair shops, metalworking shops and offset print shops.

## HAND CLEANSER FOR SPECIAL SOILING

### VERTULIN SPEZIAL

#### With special solubilizer

- unscented free-flowing paste without preservatives
- with plastic scrubbing particles and skin-friendly dicarboxylic acid esters as solubilizers (not classified as flammable according to CLP regulation)
- special washing-active substances and re-lubricants have been added

**Special hand cleansers for strongly-adhering dirt like colors and paint**

#### Scope of application:

For the strongest soiling caused by color, paint, resins, adhesives, bitumen and pitch.

## HAND CLEANSER FOR SPECIAL SOILING

### VERTUSTOL

#### With reducing agents

- pasty special cleanser / with micronized plastic powder
- contains reducing agents for removing color soiling
- with added special washing-active substances and oil-restoring substances
- slightly scented, preservative-free

**Special hand cleanser with plastic scrubbing particles for reactive dyes and strongly adhering dirt**

#### Scope of application:

For reactive dyes and intensive dirt produced in printing shops, chemical manufacturing and textile and leather processing, for example.

## HAND CLEANSER FOR SPECIAL SOILING

### HERWE CLEANOIL SOFT

#### With natural vegetable oils

- scrub particle- and solvent-free hand cleanser
- water-free concentrate
- strong cleansing power owing to natural vegetable oils and special washing-active substances
- economical dosing owing to high active ingredient concentration
- especially skin-friendly and economical
- preservative-free

**Hand cleansing concentrate for strong industrial soiling and printing colors, can be used without water**

#### Scope of application:

For the thorough yet skin-protective cleansing of oily and greasy soiling found in metalworking shops, crafts, color soiling in the printing industry as well as in asphalt and bituminous soiling in the construction industry.

## HAND CLEANSER FOR SPECIAL SOILING

### HERWE ORANGE FRESH ABRASIVE WIPES

- For use without water
- wet cleansing wipes with special solubilizers
- high cleansing power through one-sided, abrasive paper structure
- with a wipe side without woven scrubbing particles, thus also suitable for mild skin or surface cleansing
- pleasant fresh scent

**Hand cleansing wipes for removing all kinds of strong or strongly adhering soiling without the addition of water**

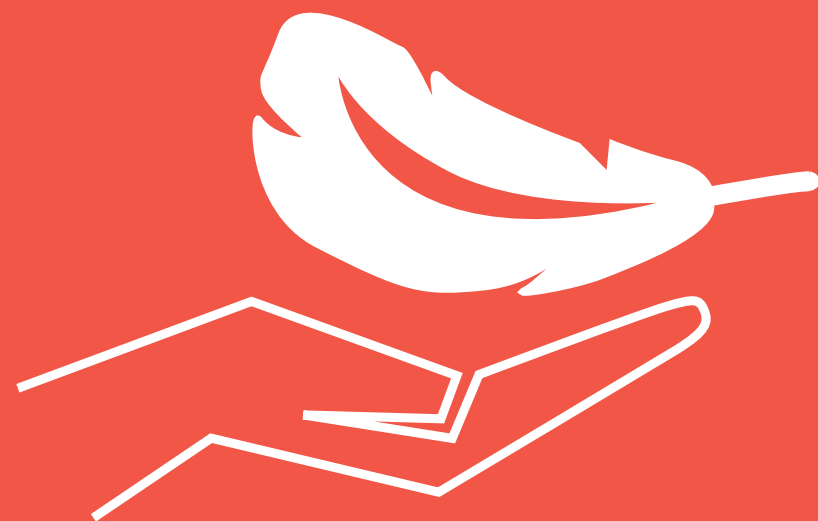

#### Scope of application:

For the waterless hand cleansing of strong soiling like oils, fats, lubricants and strongly adhering substances like color, varnish, resins, etc.

Also available as handy Travelpack!

# SKIN CARE

## AFTER WORK

Environmental factors and a strong occupational exposure remove essential skin components like lipids or hygroscopic substances. The body's own regeneration is often incapable of making up this deficiency. Through their composition, skin care products support this regenerative process after work and restore the skin's original elasticity and barrier function. Select the suitable skin care product from the HERWE assortment.

## SKIN PROTECTION PLAN. SKIN CARE.

The Skin Protection Plan contains the skin risks at the workplace and the skin protection, skin cleansing, **SKIN CARE** and special products to be used for minimizing these risks. It must be drawn up by the employer and announced to the employees by posting it in the appropriate place. The Skin Protection Plan content is an integral part of regular instruction.

CARE CREAM / - LOTION FOR EVERY SKIN TYPE

## HERWE CURA / HERWE CURA LIQUIDO

- easily absorbed, ensures a pleasant skin sensation
- slightly greasy cream / lotion
- contains natural oils and beeswax
- promotes skin regeneration
- for hands, face and body
- slightly scented, silicone-free

Pleasantly spreadable  
skin care cream / - lotion

### Scope of application:

After every hand, facial and body wash, also while working in the organization or office.

REFRESHING CARE GEL

## HERWE CARE GEL

- easily absorbable, non-greasy care gel for the occupationally stressed skin
- with urea and hyaluronic acid as natural moisturizers
- contains refreshing melon extract, vitamin E and jojoba oil
- without emulsifiers and preservatives
- silicone-free

Refreshing care gel with highly active moisturizing complex

### Scope of application:

For all uses that require intensive care and good absorption at the same time – also ideally suitable for persons who cannot tolerate preservatives and emulsifiers.

EASILY ABSORBED HAND AND BODY LOTION  
FOR SENSITIVE SKIN

## HERWEDERM LOTION SENSITIVE

- without perfumes, dyes or preservatives
- dermatologically tested on atopic skin
- PEG-free
- with high level of nourishing oils

For a particularly mild hand and body care

### Scope of application:

Universally applicable special care preparation recommended for all industries and working areas, especially for skin sensitive persons and when skin problems arise. Suitable for general application especially for health care, pharma and food sector as well as for precision mechanic and electromechanics.

For further information about our  
HERWEDERM SENSITIVE range,  
see pages 24 and 25.

HIGHLY CONCENTRATED CARE CREAM

## HERWE MIELOSAN

- nourishing cream for hands and feet
- with honey, urea, glycerin and allantoin
- promotes the skin's natural moisture-retention ability
- excellent care
- easily spreadable
- very economical in use
- silicone-free

Rich care cream for dry and stressed skin

### Scope of application:

Cares for the skin after intensive hand cleansing and other activities that strongly dry it up.

## HERWEDERM SENSITIVE RANGE

### SKIN PROTECTION, SKIN CLEANSING AND SKIN CARE FOR SENSITIVE SKIN.

More and more people suffer from extremely sensitive skin caused by physical, chemical or mental stress and other harmful environmental influences. In particular at the workplace, this may increasingly lead to skin problems.

Especially for this sensitive skin types we offer with the HERWEDERM SENSITIVE range a professional skin protection concept with three perfectly matched special products for skin protection, skin cleansing and skin care.

The HERWEDERM SENSITIVE products are hypoallergenic (free of fragrances, dyes or preservatives), the skin tolerance has been tested successfully on persons with atopic skin.

Universally applicable products recommended for all industries and working areas, especially for skin sensitive persons and when skin problems arise. Suitable for general application particularly for health care, pharma and food sector as well as for precision mechanic and electromechanics.

#### HERWEDERM PROTECT SENSITIVE

- without perfumes, dyes or preservatives
- dermatologically tested on atopic skin
- non-greasy skin protection gel
- with highly effective, universal film-forming system
- forms an elastic, breathable and invisible protective film that gives a good grip
- imprint- and silicone- free

For imprint-free working and frequently changing working materials

#### HERWEDERM CLEAN SENSITIVE

- without perfumes, dyes or preservatives
- dermatologically very well tested on atopic skin and confirmed in the BUS model
- for particularly mild skin and whole body cleansing
- with a high level of moisturizing substances

Washing liquid for extremely sensitive skin types

#### HERWEDERM LOTION SENSITIVE

- without perfumes, dyes or preservatives
- dermatologically tested on atopic skin
- PEG-free
- with a high level of nourishing oils

For the particularly mild hand and body care

# SPECIAL PRODUCTS

## PROPHYLAXIS AND DISINFECTION

### HYGIENIC PROTECTION AGAINST BACTERIA, VIRUSES AND INSECTS

Special products contain some active ingredients whose function is suited for chemical or biological pest control. Apart from the documented effectiveness, good skin tolerance for such products is indispensable. HERWE Special products fulfill these requirements.

## SKIN PROTECTION PLAN. SPECIAL PRODUCTS.

The Skin Protection Plan contains the skin risks at the workplace and the skin protection, skin cleansing, skin care and **SPECIAL PRODUCTS** to be used for minimizing these risks. It must be drawn up by the employer and announced to the employees by posting it in the appropriate place. The Skin Protection Plan content is an integral part of regular instruction.

## SPRAY FOR THE EFFECTIVE PROTECTION AGAINST MOSQUITOES AND TICKS

### HERWE MOSKIT-SPRAY

- immediately protects against ticks and mosquitoes; its effect reliably lasts up to four hours
- for use on skin and clothes
- for tropical use
- dermatologically tested
- with fresh scent

**Spray for the effective protection against mosquitoes and ticks with an active ingredient system that is very well tolerated by the skin**

#### Scope of application:

Work in which the person is bothered by biting or sucking insects or ticks. Main area of use is outside work, especially in the summer months. Also suitable for children 3 years and older.

*Use biocides safely. Always read the product's characteristics and information before use.*

BAUA Nr.: N-54816

## INVIGORATING SPRAY AGAINST FOOT ODOR AND ATHLETE'S FOOT

### HERWE FUSS-SPRAY

- refreshes and reduces foot sweat for the prophylactic support against athlete's foot
- especially developed for use in working shoes and boots
- betaine and cosmetic oils ensure a caring effect
- cooling and deodorizing effects by mint oil and rosemary oil
- very efficient active system

**When wearing working shoes and boots**

#### Scope of application:

Closed and airtight shoes worn at work that can produce foot sweat and athlete's foot. Suitable for daily care. The shoes can also be sprayed for preventing athlete's foot.

## LIQUID HAND DISINFECTANT

### HERWE DERMASEPT LIQUID

- good skin tolerance, suitable for people with sensitive skin as well
- alcoholic preparation, free of dyes and fragrances
- broad spectrum of activity against bacteria, yeast and enveloped viruses like e.g. HIV, influenza/- influenza viruses as well as against noro viruses (MNV)
- tested according to DGHM/EN 1500, RKI-recommendation (limited virucidal) and according to EN 14476 (noro viruses)

**For the hygienic hand disinfection without water**

#### Scope of application:

Recommended for use in food production as well as in nursing/retirement homes and in sewage treatment plants.

*Use biocides safely. Always read the product's characteristics and information before use.*

BAUA Nr.: N-60819

## CLEANING GEL FOR HYGIENIC HAND WASHING

### HERWE DERMASEPT WASH

- for one-step hygienic hand washing and hand decontamination (tested according to DIN EN 1499:1997)
- good skin tolerance on the basis of sugar surfactants, glycerin and allantoin
- free of dyes, fragrances and alcohol
- tested for yeasticidal and bactericidal effect (according to EN 1275 & EN 1040)

**Antimicrobial skin-friendly cleansing lotion**

#### Scope of application:

Recommended for use in food production as well as in nursing/retirement homes and in sewage treatment plants.

*Use biocides safely. Always read the product's characteristics and information before use.*

BAUA Nr.: N-45535

## RAPID DISINFECTANT FOR SURFACES

### HERWESEPT

- ready to use alcoholic liquid surface disinfectant
- for cleansing and disinfection of alcohol resistant surfaces, like e.g. worktops, doorknobs and toilet seats
- good skin tolerance, no discoloration of any surfaces
- unscented and residue-free, therefore especially suitable in food sectors
- broad spectrum of activity against bacteria, yeast and enveloped viruses like e.g. HIV, influenza/- influenza viruses as well as against noro viruses (MNV)
- tested according to DGHM/EN 13697, RKI- recommendation (limited virucidal) and according to EN 14476 (noro viruses)

**Rapid disinfectant for surfaces**

#### Scope of application:

Recommended for use in the food production and processing industry as well as in nursing/retirement homes and in sewage treatment plants.

*Use biocides safely. Always read the product's characteristics and information before use.*

BAUA Nr.: N-59655, N-60816

# DISPENSING SYSTEMS

## REFILLING AND CARTRIDGE DISPENSERS

Apart from the hygienic withdrawal of the respective skin protection, skin cleansing, skin care and special products, dispensing systems also make economical dosing possible. From our assortment, choose the right dispensing system for your needs.

The HERWE **universal dispensers** (Page 31 and 32) have in common that all free-flowing products from the HERWE assortment can be dosed from the same dispensing system. The pouch bottles available in 1 and 2 liters come with an integrated pump to prevent the dispenser from coming in direct contact with the material to be pumped, which guarantees a hygienic product withdrawal. In addition, the mechanism integrated in the dispenser allows the variable adjustment of the product dosage depending on product and field of application. This leads to economical and thrifty use.

### UNIVERSAL DISPENSER

#### HERWEMAT HERO

- impact resistant and tough, with glass fiber reinforced plastic
- uncomplicated installation of dispenser with universal pattern of drilling
- big operating area, also adapted for actuation with elbows
- with plug-in system for the stroke regulation
- simple change of container

For all skin protection, skin cleansing, skin care and special products  
in the 1000 ml and 2000 ml pouch bottles

#### Dimensions:

W144 x H314 x D130 [in mm]

HERWEMAT HERO, anthracite  
Item no. 70043

with HERWE logo  
Item no. 70041

HERWEMAT HERO, ecru  
Item no. 70045

## UNIVERSAL DISPENSER

## HERWEMAT UNI 2000

## METAL

- metal dispenser made from steel panel
- white-coated housing
- lockable
- stainless steel operating lever

**For all skin protection, skin cleansing, skin care and special products in the 1000 ml and 2000 ml pouch bottles**

**Dimensions:**

W134 x H316 x D128 [in mm]

HERWEMAT UNI 2000 metal

Item no. 70031

## HERWEMAT UNI 2000

## PLASTIC

- housing and wall mount made of impact-resistant plastic
- with adjusting screw for regulating the pump volume
- stainless steel operating lever
- also available as triple dispenser mounted on a wall plate
- ideal for a fully coordinated skin protection, skin cleansing and skin care concept

**For all skin protection, skin cleansing, skin care and special products in the 1000 ml and 2000 ml pouch bottles**

**Dimensions:**

Single dispenser

W125 x H320 x D125 [in mm]

Triple dispenser

W380 x H320 x D125 [in mm]

HERWEMAT UNI 2000

Item no. 70017

HERWEMAT UNI 2000 triple dispenser

Item no. 70023

## CARTRIDGE DISPENSER

## HERCUMAT 500 / 1000 K

- Plastic dispenser with stainless steel bail
- lockable breech plate
- flexible dosage adjustment
- substitutable pump
- For all free-flowing products (without scrubbing particles) in the 500 ml and 1000 ml hard bottle

**Dimensions:**

W105 x H325 x D222 [in mm]

HERCUMAT 500 / 1000 K

Item no. 70047

## HERCUMAT 500

- eloxed aluminium housing
- shutter cover with viewing slot
- with short stainless steel operating lever

**For all free-flowing products (without scrubbing particles) in the 500 ml hard bottle, with short lever; locking plate 500 for burglar-proof locking**

**Dimensions:**

W80 x H253 x D151 [in mm]

HERCUMAT 500

Item no. 70027

## HERCUMAT 1000

- eloxed aluminium housing
- shutter cover with viewing slot
- with short stainless steel operating lever

**For all free-flowing products (without scrubbing particles) in the 1000 ml hard bottle, with short lever; locking plate 1000 for burglar-proof locking**

**Dimensions:**

W94 x H324 x D162 [in mm]

HERCUMAT 1000

Item no. 70004

## HERCUMAT 2500

- eloxed aluminium housing
- shutter cover with viewing slot
- with short stainless steel operating lever

**For all free-flowing products (also with scrubbing particles) in the 2500 ml bottle, lockable**

**Dimensions:**
