

HERCULAN CHERRY PLUS

Paste hand cleanser with scrubber for very tough industrial contaminants with Benzalkonium Chloride hygiene agent

Description:	HERCULAN CHERRY PLUS is a highly viscous, pink, pleasantly perfumed hand cleaner with skin-friendly and biodegradable corn cob meal and skin care agents. HERCULAN CHERRY PLUS is free of solvents and terpenes. It contains the agent Benzalkonium Chloride for added hygiene.
Ingredients (INCI):	AQUA (WATER), ZEA MAYS (CORN) COB MEAL, SODIUM LAURETH SULFATE, CETYL ALCOHOL, COCAMIDE DEA, BRASSICA CAMPESTRIS (RAPSEED OIL) SEED OIL, COCAMIDOPOPYL BETAINE, ALCOHL DENAT., BENTONITE, XANTHAN GUM, STEARYL STEARATE, GLYCOL DISTEARATE, LAURYL GLYCOSIDE, HYDROENATED PALM GLYCERIDES, BENZALKONIUM CHLORIDE, SODIUM BENZOATE, POTASSIUM SORBATE, CITRIC ACID, PARFUM (FRAGRANCE), CI 17200 (D&C RED NO. 33)
Properties:	HERCULAN CHERRY PLUS removes strong industrial contaminants. The dirt is gently removed from the skin, emulsified and rinsed off with water. The skin feels pleasantly soft and supple after the washing process. Natural meal from corn cob supports the cleaning process in a mechanically mild manner without causing hand irritation. Corn cob meal floats and does not clog drains or pipes and is biodegradable.
Area of use:	HERCULAN CHERRY PLUS is a proven, naturally-based, modern skin cleanser. It cleanses the skin quickly, thoroughly and gently, especially with oily and greasy soiling and dusts. HERCULAN CHERRY PLUS can be used universally in a wide range of industries: mechanical engineering, garages, metalworking, and mining.
Application:	HERCULAN CHERRY PLUS is designed for use in a dispensing system. Apply one to two pumps to dry hands, rub in, add some water and scrub well. When the dirt has dissolved, rinse well with water until the hand is foam-free. When working with highly adhesive materials, it is advisable to apply HERWESAN PRO as a protective cream before work. These protective creams make subsequent cleaning much easier.
Regulatory:	HERCULAN CHERRY PLUS is subject to the FDA and EU Cosmetics Regulation and meets the requirements in the current formulation. Labeling in accordance with legislation on hazardous substances is not required.
Storage and shelf life:	HERCULAN CHERRY PLUS is stable in closed containers at room temperature for 30 months (from the date of manufacture). The expiry date is indicated on the packaging.
Packaging size:	2000 ml VIVA bottle
Recycling:	The cardboard and plastic packaging are recyclable.
